

Brighten up your business. Lighten your energy costs.

Retrofit Program: Lighting

If you're looking for ways to improve your business, look up. Upgrading your lighting to a more efficient technology is a simple way to a better working environment, improved customer experience, and lower energy costs. Brighten up your business and your bottom line.

Financial incentives available at retrofitmybusiness.com

Energy savings give you more to reinvest.

Increased productivity.

Better lighting can create a safer environment and lower the chance of workplace accidents.

More visual appeal.

High-efficiency LED lighting creates a more welcoming environment for your employees and customers.

Decreased maintenance.

LED lasts five times longer than standard lighting, leaving you with more time to focus on what matters.

Operational savings.

More efficiency lighting means lower electricity costs. Give your business a better bottom line.
